Generate 3600 MW of electricity from LNG in the current year. This will significantly enhance our energy security. Financially, this project will not only boost our economy but also make Pakistan a self-sufficient country in terms of energy.

In close collaboration with the Indus River and other water bodies, we are planning to develop various hydroelectric power projects. This will not only provide clean energy but also contribute to the development of the country.

We are also working on forward planning to ensure that our energy needs are met in the future. We are investing in renewable energy sources and diversifying our energy mix to ensure a sustainable future.

In conclusion, the Lakhra Gasfield is a crucial project for Pakistan's energy security. We are committed to its successful implementation and look forward to its positive impact on our economy and society.
It is higher than the highest mountain in the world, its deeper than the deepest ocean in the world and it is sweeter than the sweetest honey in the world.

China has become a powerful country in the world. It has advanced technology and achievements in all fields. It has its own fighter planes and a strong military. The Chinese have been working hard to improve their country and they have achieved a lot. They have become a major power in the world and this is due to their hard work and determination.

Pakistan has also made significant progress in recent years. It has improved its economy and infrastructure. It has also become a more stable and secure country. Pakistan is a member of the Shanghai Cooperation Organization (SCO) and it has good relations with many countries in the region. Pakistan is also an important member of the CPEC (China-Pakistan Economic Corridor) project.

Both Pakistan and China have a long history of friendship. They have worked together for their mutual benefit. The Chinese have invested heavily in Pakistan and have helped it to develop its infrastructure and economy. Pakistan has also helped China to build its port facilities in Gwadar.

The Chinese have also helped Pakistan to improve its military capabilities. They have provided Pakistan with fighter planes and other military equipment. Pakistan has also become a member of the Shanghai Cooperation Organization (SCO) and it has good relations with many countries in the region. Pakistan is also an important member of the CPEC (China-Pakistan Economic Corridor) project.

The friendship between Pakistan and China is based on mutual respect and cooperation. It is a symbol of the strength of the relationship between the two countries. Pakistan and China are working together to achieve a better future for their people.

In conclusion, Pakistan and China have a long and fruitful history of cooperation. They have worked together for their mutual benefit and have achieved a lot. The friendship between Pakistan and China is based on mutual respect and cooperation. It is a symbol of the strength of the relationship between the two countries. Pakistan and China are working together to achieve a better future for their people.
And I wish you well Mr. President and wish the Council General well and also my congratulations to you and the workers who are here in this factory on the advent of the New Year in China. So Thank you very much.
