Performance is the key to success for any government. We are ensuring that all the promises are met and all services to citizens delivered.

Prime Minister of Pakistan — Imran Khan —
Having worked with the Pakistan’s government for almost 40 years, I can safely conclude that governance has not moved with the times. Our governments continue to operate with archaic systems, with minimal debate on public policy objectives, and lacks effective coordination between departments - all of which results in slow delivery on government commitments. Rather than being proactive, over time, our public sector governance is now reactive, and the common Pakistani has suffered.

When I observe governance models around the world, and also that of our private sector, I realize the need to change our government management practices is now more important than ever before. For me, the critical missing piece beside other factors, has been the lack of annual work agendas, which is why, under the direction of the Prime Minister, I have spearheaded the implementation of Performance Agreements for the Federal Government.

The Performance Agreements system has substantially evolved in the last two years. All federal ministries prepare comprehensive annual work plans which comprise of a set of initiatives and quarterly targets that the ministry aims to achieve. I, along with a high-powered Peer Review Committee then hold sessions with each ministry to constructively analyze the work plans. Once finalized, these are signed off by the Prime Minister, after which, we conduct extensive quarterly reviews to assess performance against committed targets. This exercise not only allows the government to implement its agenda more effectively, but also helps Ministers and Secretaries to track progress within their divisions and objectively assess performance of their officers.

After having completed one successful round, I believe that this tool accelerates implementation by enabling the ministries to embed reform agendas in their annual plans, helps resolve cross-ministerial issues and supports them to regularly reflect on the pace of reform.

This methodical exercise is a joint effort by the Ministries, the Peer Review Committee and my Reform Team, who all have contributed thousands of hours of quality work to prepare the Performance Agreements.

Today, I am proud to share the federal government’s agenda for the next two years. I assure you that under the leadership of the Prime Minister, I will be reviewing these commitments every quarter to ensure delivery of results by FY2021-22 and FY2022-23.
Performance Management: Unlocking Governance Challenges

There are multiple ways to transform governance within the public sector and the right set of tools can be put to use for a desired outcome. A governance redesign fundamentally has to understand and respect the complexity and interconnectivity of an existing setup, and have the flexibility to evolve with the needs of individuals and the system, overtime.

The current government prioritizes governance reforms as the key for success in delivering results. This has been embedded within its Manifesto as one of the 6 pillars: transforming governance towards better accountability, empowerment and service delivery.

After forming government in 2018, one of the most significant gaps to ensure better delivery in Pakistan was the lack of setting a baseline for performance at the institutional level. There was no benchmark for performance or evaluation, and by default, there was no will or interest to deliver efficiently either.

Using institutional performance as an entry point, the Federal Government embarked upon a journey to unlock governance challenges. Under the Prime Minister’s comprehensive Civil Service Reforms Agenda, it initiated a new performance management system that brought the entire federal government together through one implementation tool: Performance Agreements.

Through the Performance Agreements, the government now has in place, a robust mechanism for operational planning and executing actions effectively, for a range of sectors and outcomes. This system is simple, flexible, and agile enough to allow all ministries to plan, set targets, review, and improve along the way.
Performance Agreements
Transforming Governance Practices by

- Embedding reform agenda within annual targets
- Predicting bottlenecks in delivery
- Shifting delivery from process to outcomes
- Ensuring cross-ministerial coordination
- Setting baseline for effective performance audit
- Ensuring continuity of government agenda
- Evaluating data driven quarterly progress
- Communicating government agenda to the public

Setting annual work agenda for the Federal Government
Performance Agreements:
THE IMPLEMENTATION PROCESS

The process of Performance Agreements is simple. A Minister, together with the Secretary for each ministry identifies a set of initiatives, along with clear targets to achieve over a specified period of time. The initiatives are finalized, and signed off by the Prime Minister and the Minister. This sets the agenda for the particular ministry to deliver and provides the Prime Minister a tool to gauge institutional performance over time.

Other countries have also followed a similar model to varying degrees. Other than OECD countries, in Asia, a similar system has been used in Bangladesh, China, South Korea and Sri Lanka.

When the Federal Cabinet approved the proposed performance management system in September 2019, the Establishment Division decided to run a pilot to stress test the content as well as the process. Eleven ministries were selected based on a mix of mandates including policy making, revenue generation and service delivery.

The ministries selected for the pilot were Climate Change, Commerce, Communication, Education, Energy, Health, Housing and Works, Industries, Information Technology, National Food Security, and Water Resources.

Over a three month period, Secretaries and other officials of these ministries sat together to design a template, in line with their needs and nature of work. Collective wisdom led to the production of a simple template with very clear guidelines on identifying a set of priority initiatives along with quarterly targets, and most importantly, providing names of the ministries/divisions that the initiative is dependent upon.

In terms of content, while ministries were free to pick initiatives from any of their reform efforts, Public Sector Development Program (PSDP) projects, or other development programs, all had to prepare initiatives for simplification of procedures, automation and internal auditing.

Simultaneously, a Peer Review Committee (PRC) was formed. Chaired by the Deputy Chairman of the Planning Commission, the PRC was represented by senior officials from four cross cutting ministries - Cabinet, Establishment,
Finance and Planning. Once the agreement was drafted by the pilot ministry, it was presented to the PRC, where the initiatives and targets were rationalized and improved.

By December 2019, Performance Agreements for all pilot ministries had been prepared for a six-month period, ending June 2020 and the process of quarterly reviews then began.

There were several lessons learnt from the pilot exercise, which were then presented to the Federal Cabinet in July 2020. From a governance perspective, some of the key takeaways included:

- No ministry can deliver alone: the government requires a backend system to cross-connect dependences between ministries
- The culture of preparing future agendas does not exist in ministries: this exercise is the first step in helping develop annual action plans
- Proactive preparation is helping ministries move away from “process” to “output” based targets, with actual service delivery as the outcome
- Prime Minister’s time can be focused on key results and crucial policy matters, not regular ministerial challenges

The Cabinet endorsed the fact that the system is not only effective for tracking progress but is also a facilitation mechanism to resolve inter-ministerial matters.

Performance Agreements were considered a critical governance tool for implementing the government’s reform agenda. Therefore, it was approved and expanded to all ministries and divisions for Financial Year 2020-2021.

Building on the process established during the pilot, the PRC undertook a herculean task of working together with all ministries and divisions of the Federal Government to prepare their Performance Agreements, which were signed off by Prime Minister Imran Khan with each Minister.

The National Information Technology Board (NITB) supported the development of an online portal which now allows for real time status updates by the ministries and divisions. The portal also allows ministries to add dependencies on other ministries for documentation and easy to access for action.

The PRC conducts regular quarterly reviews throughout the year which cajoles ministries and divisions to adhere to their delivery timelines. It also provides the much required inter-ministerial resolution platform to address bottlenecks and bring efficiency into the system.

For the financial year 2020 – 2021, a total of 40 ministries and divisions prepared their agreements. Over 1300 reform, policy, development, and administrative initiatives were chosen for delivery through 6000 targets identified on quarterly basis. For these targets, over 1700 inter-ministerial dependencies were tracked.
Pakistan is now set to use institutional performance as an entry point to transforming governance. As a backend tool, the Performance Agreement has set delivery in motion.

To further improve the process and benefit from increased capacity, a two-year agreement has been prepared for this cycle, ending June 2023. With the quality of initiatives improved, a total of 1,090 initiatives have been finalized.

Quarterly reviews will allow the Federal Government, with complete ownership of the ministries, to internally keep track of its output over the two years.

Regularly, the respective ministries and divisions hold press conferences, undertake groundbreaking events, and launch various programs and initiatives. Nevertheless, in the spirit of transparency and for ease of reference, this document provides a snapshot of the initiatives of the entire Federal Government, as identified through the Performance Agreement system.

For each ministry, in this document, the initiatives are divided into three categories:

1. Completion by Financial Year 2021-2022
2. Completion by Financial Year 2022-2023
3. ‘Running’ initiatives, supplementing the overall delivery of ministries across the two years, and beyond

GRAND TOTAL: 1090
Complete by FY 2021-22

1. Separate regulatory and service provider functions of Civil Aviation Authority (CAA)
2. Revise National Aviation Policy- 2019
3. Outsource pilots examination system to the internationally accepted regulatory body and conduct exam of 500 pilots
4. Contribution of aviation in promotion of global, regional and domestic connectivity through at least 2 licenses
5. Commence international flight operations and expansion of existing passenger terminal building at Skardu airport
6. Relocate Walton Airport Lahore and utilize the land of the existing Walton Airport for commercial activities
7. Formulate and implement turn-around plan for PIACL
8. Establish Civil Unmanned Aircraft System Authority (CUASA)
9. Independence of Aircraft Accident Investigation Board (AAIB) from Pakistan Civil Aviation Authority as per ICAO requirements
10. Award contract to Modernize air traffic management system for meeting the international requirement of ICAO for reduction in enroute separation
11. Assessment of Pakistan Meteorological Department (PMD) by a third party
12. Reconstruction of the runway at Lahore airport (AIAP)
13. Reconstruction of the runway at Faisalabad airport
14. Reconstruction of the runway at Quetta Airport
15. Linkage between the Marmara Research Center, Turkey and Pakistan Meteorological Department and training of 24 staff members in Turkey
16. Install Weather Surveillance Radar at Karachi
17. Amendment in Rules of Business, 1973
18. Create of Internal Audit Section
19. Interactive website with all requirements concerning functions, procedures, SOPs NOCs and along with an online complaint/feedback system

RUNNING INITIATIVES
1. Strengthen financial management through internal audits of all attached and autonomous departments
2. Screen officers for early retirement as per the Directory Retirement Rules

Complete by FY 2022-23

1. Operationalize New Gwardar International Airport
2. Delegate the role of operator and developer of airports to the private sector and outsource at least one airport
3. Prepare a business plan and utilize Benazir Bhutto International Airport
4. Award Pakistan Hydero - Met and Climate Services Project to revamp the meteorological services
5. Expansion of Lahore Airport - 72 % physical progress achieved
6. Upgrade runway at Jinnah International Airport - 65 % physical progress achieved
7. Glacier Lake Outburst Flooding : Install instruments in 24 valleys
8. Establishment of Weather Observatory at Naran for tourists
9. Install Weather Surveillance Radar at Multan - 70 % physical progress achieved
10. Install Weather Surveillance Radar at Sukkur - 60 % physical progress achieved
11. Construction of Rain Water Harvesting Kasana Dam
12. Replace existing seaband analog radar with dual polarization seaband radar at Dera Ismail Khan KP
BOARD OF INVESTMENT
**RUNNING INITIATIVES**
1. Implement reform proposals for Small and Medium Enterprises under the Pakistan Regulatory Modernization Initiative
2. Conduct Road-Shows, Investment Conferences, Seminars and Bilateral Economic Consultations
3. Capacity Building training workshops for focal persons of federal, provincial and local government regulatory departments
4. Screen officers with over 20 years of service as per Directory Retirement Rules

**Complete by FY 2021-22**
1. Revise the Investment Policy, 2013 to make it more investment friendly
2. Draft the Legal Framework related to Asan Karobar Act (Regulatory Modernization)
3. Finalize the Ease of Doing Business Strategy for three years
4. Draft the Foreign Private Investment Act
5. Finalize the B2B Portal for online interaction between local & foreign companies to explore the possibility of Joint Ventures
6. Operationalize the Special Economic Zone (SEZ) MIS Module and integrate with Pakistan Single Window for custom duty exemption clearance

**Complete by FY 2022-23**
1. Establish Model SEZ in Islamabad (1000 acres) to attract investments and promote industrialization
2. Establish and develop CPEC SEZ on Pakistan Steel Mills land, Karachi
3. Finalize Framework Agreement on Industrial Cooperation under CPEC
4. Finalize and implement the Ease of Doing Business Action Plan (to aim for ranking of 75 by FY22-23)
5. Implement the Bilateral Investment Treaties Strategy
6. Develop Project Portal (online database of projects from public and private sector, profiles of investors and Local Service Providers to highlight the investment potential and opportunities)
7. Automate receipt and issuance of Work Visa Recommendation Letter
8. Establish One Stop Services for SEZs to facilitate provision of services to the businesses operating in SEZs on a single platform
9. Amend the SEZ Act 2012 to make it more investor friendly
10. Establish the Pakistan Business Portal under Pakistan Regulatory Modernization Initiative
11. Establish e-Registry for federal government under the Pakistan Regulatory Modernization Initiative
12. Initiate construction of the CPEC Business and Investment Climate Tower in Islamabad
CABINET DIVISION
**RUNNING INITIATIVES**

1. Capacity building of 700 officials of various Ministries/ Authorities/ Divisions on general and specialized Standard Bidding Documents and Procurement Regulatory Framework (PPRA)
2. Extensive Quality of Service (QoS) Surveys throughout Pakistan, Azad Jammu & Kashmir (AJK) & Gilgit Baltistan (GB) of mobile operators (PTA)
3. Local events to promote tourism (PTDC)
4. Social Media Marketing initiatives to promote tourism (PTDC)
5. Dissemination of “Brand Pakistan” publicity material for tourism promotion (PTDC)
6. Indicative Generation Capacity Expansion Plan (NEPRA)
7. Strengthen financial management through internal audits of all attached and autonomous departments
8. Screen officers with over 20 years of service as per the Directory Retirement Rules

**2021**

- Complete by FY 2021-22

1. Audit to assess the quantity of gas loss by of Companies (OGRA)
2. Notification of LNG Terminal Access Rules and LNG Terminal Access Code to facilitate import and sale of LNG/RLNG in Pakistan by private sector by using LNG infrastructure including onshore/ off shore terminals and storage facilities (OGRA)
3. Amendment in Pakistan Oil (Refining, Blending, Transportation, Storage & Marketing) Rules, 2016 to create an enabling environment and attract private investment in Oil Sector (OGRA)
4. Standardize bidding documents for procurement of all goods and services (PPRA)
5. Specialized bidding documents for procurement related to Pharmaceuticals and Technology and Information Communication and Technology (ICT) (PPRA)
6. Singular Pakistan Emergency Helpline (911) to cater to all emergency call across the country (PTA)
7. Automate all licensing processes to reduce overall approval time (PTA)
8. Regulatory Framework for usage of Short-Range Devices (SRD) (PTA)
9. Issuance of first ever Tariff Regulations to cover entire telecom market (PTA)
10. Review Mobile Termination Rate (PTA)
11. Enforcement and Compliance of National Telecom Cyber Security Regulations (PTA)
12. Restructure Pakistan Tourism Development Corporation (PTDC)
13. Develop National Tourism Index (PTDC)
14. National Tourism e-portal and mobile App to facilitate domestic and international tourists (PTDC)
15. Online portal for consumer complaints for DISCOs (NEPRA)
16. Multiyear tariff of at least three DISCOs (NEPRA)
17. Automate all site clearance and frequency allocation procedures to reduce overall approval time (Frequency Allocation Board)
18. Establish Monitoring Stations at Faisalabad and Islamabad for better frequency (interference) complaint resolution (Frequency Allocation Board)
